Regulatory Tracking Summary

1 July 2011

This report summarizes regulatory items reviewed by the NASA RRAC PC. Items that appeared to have limited interest to the NASA community, or are provided for information only, are shown in light gray text. Notes and comments by the RRAC PC are shown in bold, blue text under "Description." Related documents and citations, such as "76 FR 51967," are linked to the appropriate document for quick access. Suggested follow-up actions are noted with significant items; users are advised that other follow-up actions may be appropriate for their program or facility. Previous issues of this regulatory summary are archived on the RRAC PC website at <http://www.nasa.gov/offices/rrac/home/>. Comments, questions, suggestions, and requests for further information should be directed to the RRAC PC Manager, Sharon Scroggins at 256-544-7932 (sharon.scroggins@nasa.gov).

Webinar is scheduled for 07/13/2011.	
FED070111-18	Water Test Methods	06/24/2011	76 FR 37014	Final Rule	U.S. Environmental Protection Agency Expedited Approval of Alternative Test Procedures for the Analysis of Contaminants Under the Safe Drinking Water Act; Analysis and Sampling Procedures [40 CFR Part 141] Approves alternative testing methods for use in measuring drinking water contaminant levels and determining compliance with national primary drinking water regulations. Effective 06/24/2011.	

1.2 Other News and Developments

1.2.1 GreenGov Symposium 2011

The second annual GreenGov Symposium will be held in Washington, D.C., from 31 October 2011 through 2 November 2011. The conference brings together leaders from government, the private sector, non-profits, and academia to discuss clean energy, energy and water efficiency, fleet management, getting to zero waste, green buildings, and greening the supply chain. More information about the 2011 GreenGov Symposium can be found at the GreenGov [website](#).

1.2.2 Radon Action Plan Released

On 20 June 2011, EPA released the [Federal Radon Action Plan](#), which describes the federal government's approach to reduce radon risk. The plan contains current actions as well as new commitments by federal agencies to reduce exposure to radon, a potent carcinogen. More information about the Federal Radon Action Plan is posted on the EPA [website](#).

1.2.3 Clean Water Act Guidance - Comment Period Extended

The public comment period has been extended until 31 July 2011 for commenting on the [Draft Guidance on Identifying Waters Protected by the Clean Water Act](#). The original 60-day public comment period was set to expire on 1 July 2011. The guidance is intended to be used to help determine whether a waterway, water body, or wetland is protected by the CWA. The change in the public comment period will not affect the schedule for finalizing the guidance or alter the

intent to proceed with a rulemaking. More information regarding CWA applicability is available on the EPA [website](#).

1.2.4 EPA and U.S. Coast Guard Sign Memorandum of Understanding

EPA and the USCG have signed a [Memorandum of Understanding \(MOU\)](#) to jointly enforce U.S. and international air pollution requirements for vessels operating in U.S. waters. The requirements establish limits on NO_x emissions and require the use of fuels that have lower sulfur contents. Under the MOU, both the USCG and EPA will perform inspections and investigations, and will take appropriate enforcement actions if a violation is detected.

The MOU specifically enforces Annex VI of the International Convention for the Prevention of Pollution from Ships ([MARPOL](#)). Annex VI of the MARPOL treaty is the main international treaty addressing air pollution prevention requirements for ships. More information about the MOU between EPA and the USCG can be found on the EPA [website](#).

1.3 NASA Regulatory Communication Working Group Updates

Regulatory Communication Working Group calls in 2011 will be held on the following Wednesdays at 12 p.m. CT:

- 17 August
- 21 September
- 19 October
- 16 November

2.0 State Regulatory Reviews

The following sections provide details about the regulatory actions reviewed for selected states in which NASA facilities and related operations are located.

2.1 Alabama State Regulatory Review

This summary includes items that were reviewed for potential impacts to NASA Centers and related operations in Alabama.

Effective 06/21/2011.	
CA070111-5	Toxic Substances DART	06/24/2011	CRNR 2011, 25z, p. 1011	Notice Meeting	Office of Environmental Health Hazard Assessment Tentative Agenda for the July 12 and 13, 2011, Meeting of the DART Identification Committee Announces a meeting scheduled for 07/12/2011 and 07/13/2011 in Sacramento, California. The tentative agenda is available on the OEHHA website .	
CA070111-6	Toxic Substances Hydrogen Cyanide and Cyanide Salts	06/24/2011	CRNR 2011, 25z, p. 1010	Notice Hearing	Office of Environmental Health Hazard Assessment Public Forum and Extension of Public Comment Period–Hydrogen Cyanide and Cyanide Salts Announces a public forum to present oral comments concerning the potential listing of hydrogen cyanide and cyanide salts. Further information is available on the OEHHA website . Public hearing is scheduled for 07/20/2011 in Sacramento, California. Comments due 08/03/2011.	

2.2.1 CARB GHG Regulation Public Workshop

A public workshop to discuss draft changes to the Greenhouse Gas Cap-and-Trade and the Mandatory GHG Reporting Regulations is scheduled for 15 July 2011 in Sacramento, California. Further information is available on the [CARB website](#).

2.2.2 Air Resources Board Training Courses

ARB offers on its [website](#) a variety of tools and resources for compliance assistance in California. A series of training courses is offered to provide compliance training for those trying to comply with state-level regulations. Available courses are listed on the [course list website](#).

2.2.3 Air Resources Board Updated Guidance

The ARB has updated the [Fact Sheet](#) regarding Off-road Diesel Vehicle Regulations to reflect changes that were made in December 2010.

2.2.4 Unified Program Updates

To facilitate reporting under AB 2286 for the Unified Hazardous Waste and Hazardous Materials Management Regulatory Program (Unified Program), an electronic reporting relationship among the Participating Agencies (PA), Certified Unified Program Agency (CUPA), and Cal/EPA has been established. Under this relationship, data submitted to a PA will be forwarded to CUPA and then ultimately consolidated and sent to Cal/EPA as a means of data sharing.

Additionally, a new reporting form and associated guidance have been released for lead acid battery inventory reporting. Use of the new form and reporting format will help to ensure that critical information is reported consistently.

Lastly, clarification of the single fee system and fee accountability program requirements for Unified Program agencies and state agencies with Unified Program responsibilities has been issued by bulletin. Further information about these changes is available on the [bulletin website](#).

2.2.5 California Air Districts Regulatory Review

2.2.5.1 *Antelope Valley Air Quality Management District*

This summary includes items that were reviewed for potential impacts to NASA Centers and related operations for the [Antelope Valley Air Quality Management District](#).
